IN RE:  INTERSTATE POWER COMPANY n/k/a INTERSTATE POWER AND LIGHT COMPANY	DOCKET NO. E-21337
---	--------------------

**ORDER GRANTING FIRST AMENDMENT OF FRANCHISE**

(Issued March 8, 2002)

On September 12, 2001, Interstate Power Company n/k/a Interstate Power and Light Company (Interstate) filed a petition, identified as Docket No. E-21337, with the Iowa Utilities Board for authority to amend its previously granted Franchise No. 17272. Interstate specifically requested the Board allow it to add 1.63 miles of 72,500-volt existing electric transmission line in Cerro Gordo County, Iowa, pursuant to Iowa Code chapter 478 (2001).

In its petition, Interstate states that it does not request authority to construct any new transmission lines, but only to amend Franchise No. 17272 for transmission lines that have been previously constructed and are presently being operated and maintained. Franchise No. 17272 was granted on January 13, 1997, in Docket No. E-21337. Interstate further states that all easements required for the line have been obtained.

Interstate has met the requirements of Iowa Code chapter 478 (2001) and 199 IAC chapter 11 and an amendment to franchise should be issued to Interstate for the transmission line described in the petition.

In addition, on January 13, 1997, the Board issued an "Order Granting Franchise" in this docket . The order incorrectly was entitled "Order Granting Franchise" when it should have been "Order Granting Extension of Franchise." The Franchise sought to be extended in the January 13, 1997, order was Franchise No. 13232 which was granted on October 29, 1971, in Docket No. E-16471. The January 13, 1997, order should be corrected by replacing the title on page 1 with "Order Granting Extension of Franchise."

#### **FINDINGS OF FACT**

1. No objections to the petition have been filed as provided for by Iowa Code chapter 478 (2001).
2. Notice of the petition was published as required by Iowa Code chapter 478 (2001).
3. Interstate has filed an agreement to pay all costs and expenses of this franchise proceeding pursuant to IOWA CODE § 478.4 (2001).

5. The transmission line represents a reasonable relationship to an overall plan of transmitting electric energy in the public interest. This conclusion is based on information provided pursuant to Iowa Code chapter 478 (2001).

6. The transmission line will meet or exceed the minimum engineering requirements of the rules of the Board and will conform to the requirements of Iowa Code chapter 478 (2001).

7. Interstate has not requested it be vested with the right of eminent domain.

8. The transmission line is near and parallel to a railroad rights of way or along division lines of land, wherever practicable and reasonable, and so as not to unnecessarily interfere with the use of land by the occupants consistent with IOWA CODE § 478.18 (2001).
