IN RE: TEL WEST COMMUNICATIONS, LLC	DOCKET NOS. TCU-04-9 WRU-04-27-3250
--	--

**ORDER GRANTING APPLICATION, APPROVING CONCURRENCE IN MAPS,
AND GRANTING WAIVER**

(Issued August 24, 2004)

On June 21, 2004, Tel West Communications, LLC (Tel West), filed with the Utilities Board (Board) an application for a certificate of public convenience and necessity, pursuant to Iowa Code § 476.29 (2003), stating its intention to provide local exchange service in the exchanges currently served by Qwest Corporation (Qwest). The application has been identified as Docket No. TCU-04-9. Tel West has provided the qualifications of its company officers and financial statements and has stated it will support a 2-PIC methodology for dialing parity.

Iowa Code § 476.29(2) provides that a local exchange carrier shall not be denied a certificate if the Board finds that the applicant “possesses the technical, financial, and managerial ability to provide the service it proposes to render and the board finds the service is consistent with the public interest.”

The Board has reviewed Tel West's application and finds the necessary technical, financial, and managerial abilities to provide local exchange service have been demonstrated. It is in the public interest to approve Tel West's application.

Tel West also states that its service area will mirror the service territory of the exchanges and service area maps of Qwest as they are currently filed and may be modified in the future. Iowa Code § 476.29(4) requires that each certificate define the service territory in which landline local telephone service will be provided and authorizes the Board to promulgate rules establishing the requirements for filing maps showing the service territory. Subrule 199 IAC 22.20(3) requires that all utilities have maps on file with the Board that show exchange boundaries. The Board finds that Tel West has complied with the statutory and rule requirements by concurring in the exchange maps of Qwest.

In addition, Tel West requests the Board waive the requirements of 199 IAC 16.5(2), 18.2, and 22.3(1). The waiver request has been identified as Docket No. WRU-04-27-3250.

Subrule 199 IAC 16.5(2) requires the keeping of records according to the uniform system of accounts. Tel West states it will maintain its books in accordance with generally accepted accounting principles (GAAP). The Board finds this waiver should be granted since records kept in accordance with GAAP accounting are acceptable for a competitive local exchange service provider.

Subrule 199 IAC 18.2 requires that a regulated public utility keep its records in Iowa. The Board will waive this subrule based on Tel West's statement that it will make the records available to the Board upon request.

Subrule 199 IAC 22.3(1), requires Tel West to independently publish a directory. The Board will grant this waiver based upon Tel West's statement that it

will arrange for its customers to be included in the directories published in the areas it provides local exchange service.

Rule 199 IAC 1.3 states that the Board may grant waivers if it finds, based upon clear and convincing evidence, that the application of the rule would pose an undue hardship, the waiver would not prejudice the substantial legal rights of any person, the provisions waived are not specifically mandated by statute, and substantially equal protection of public health, safety, and welfare will be afforded after the waiver. The Board has considered the waiver requests as described above and finds that the waiver meets the four criteria of the rule and the evidence in support of the waiver is clear and convincing.

Adherence to these rules would be an undue hardship on a competitive telecommunications company just beginning to do business in Iowa. It would be an undue hardship on Tel West because other competitive carriers have been granted similar waiver requests. The Board finds there are no substantial legal rights of any person that are affected by these waivers and there is no statute that specifically mandates the actions waived. Additionally, the Board finds that there will be substantially equal protection for the public health, safety, and welfare provided since the actions waived will be completed under different circumstances.

Tel West has not filed proposed tariffs for Board approval setting out the prices, terms, and conditions of providing local exchange service. The Board finds that a certificate should not be issued to Tel West until it has approved tariffs.

IT IS THEREFORE ORDERED:

1. The application for a certificate of public convenience and necessity filed by Tel West Communications, LLC, on June 21, 2004, is granted, subject to the requirement that follows.

2. The Board will issue a certificate of public convenience and necessity allowing Tel West Communications, LLC, to provide local exchange service upon approval of tariffs reflecting the prices, terms, and conditions of local exchange service in Iowa.

3. Tel West Communications, LLC's concurrence in the maps and boundaries of Qwest Corporation is approved.

4. The waiver of 199 IAC 16.5(2), 18.2, and 22.3(1), identified as Docket No. WRU-04-27-3250, is granted as described in this order.
