IN RE: INTERSTATE CABLEVISION COMPANY	DOCKET NOS. TCU-06-7 TF-06-270 WRU-06-22-3863
--	---

**ORDER APPROVING APPLICATION, APPROVING CONCURRENCE IN MAPS,
APPROVING TARIFF, GRANTING WAIVER, AND ISSUING CERTIFICATE**

(Issued November 7, 2006)

On October 2, 2006, Interstate Cablevision Company (Interstate) filed with the Utilities Board (Board) an application for issuance of a certificate of public convenience and necessity pursuant to Iowa Code § 476.29 (2005) stating its intention to provide local exchange service in Iowa. The application has been identified as Docket No. TCU-06-7. Interstate has provided financial statements and the qualifications of its company officers and has stated it will support a 2-PIC dialing methodology for dialing parity. No objections to the application were received.

Also on October 2, 2006, Interstate filed a proposed local exchange tariff with the Board providing the terms, conditions, and rates for local exchange service in the listed exchanges as described in the exchange maps and boundaries of the incumbent local exchange carriers. The proposed tariff has been identified as TF-06-270.

Iowa Code § 476.29(2) provides that a local exchange carrier shall not be denied a certificate if the Board finds that the applicant "possesses the technical,

financial, and managerial ability to provide the service it proposes to render and the board finds the service is consistent with the public interest."

The Board has reviewed Interstate's application and finds the necessary technical, financial, and managerial ability to provide local exchange service has been demonstrated. Interstate has also filed a statement indicating that it commits to utilizing thousand-block number pooling (TBNP), even in areas where TBNP is voluntary, to the extent it is technically feasible to do so.

Interstate also states that its service area will mirror the exchanges and service area maps of Qwest Corporation, Iowa Telecommunications Services, Inc., d/b/a Iowa Telecom, and Frontier Communications as they are currently filed and as they may be modified in the future. Iowa Code § 476.29(4) requires that each certificate define the service territory in which landline local telephone service will be provided and authorizes the Board to promulgate rules establishing the requirements for filing maps showing the service territory. Subrule 199 IAC 22.20(3) requires that all utilities have maps on file with the Board that show exchange boundaries. The Board finds that Interstate has complied with the statutory and rule requirements by concurring in the exchange maps of the incumbent local exchange carriers.

On October 23, 2006, Interstate filed an amendment to its application requesting the Board waive the requirements of 199 IAC 16.5(2) and 22.3(1). The waiver request has been identified as Docket No. WRU-06-22-3863.

Interstate requests a waiver of 199 IAC 16.5(2), which requires the keeping of records according to the uniform systems of accounts. Interstate states it will maintain its books in accordance with generally accepted accounting principles (GAAP). The Board finds this waiver should be granted, since records kept in accordance with GAAP accounting are acceptable for a competitive local exchange service provider.

Interstate also requested a waiver of 199 IAC 22.3(1), requiring it to independently publish a directory. The Board will grant this waiver based upon Interstate's statement that it will arrange for its customers to be included in the directories published in the areas where it provides local exchange service.

Rule 199 IAC 1.3 states that the Board may grant waivers if it finds, based upon clear and convincing evidence, that the application of the rule would pose an undue hardship, the waiver would not prejudice the substantial legal rights of any person, the provisions waived are not specifically mandated by statute, and substantially equal protection of public health, safety, and welfare will be afforded after the waiver. The Board has considered the waiver requests as described above and finds that the waiver meets the four criteria of the rule and the evidence in support of the waivers is clear and convincing.

Adherence to these rules would be an undue hardship on a competitive telecommunications company just beginning to do business in Iowa. It would be an undue hardship on Interstate because other competitive carriers have been granted

similar waiver requests. The Board finds there are no substantial legal rights of any person that are affected by these waivers and there is no statute that specifically mandates the actions waived. Additionally, the Board finds that there will be substantially equal protection for the public health, safety, and welfare provided since the actions waived will be completed under different circumstances.

The Board has reviewed the proposed tariff filed on October 2, 2006, and finds that the tariff substantially complies with Board rules for the filing and processing of tariff pages. The tariff contains rates for both business and residential customers. Notice was provided to all affected carriers. The Board will approve the tariff effective the date of this order and issue Interstate a certificate of public convenience and necessity concurrent with this order.

IT IS THEREFORE ORDERED:

1. The application for a certificate of public convenience and necessity filed by Interstate Cablevision Company is granted.
2. The concurrence in the maps and boundaries of Qwest Corporation, Iowa Telecommunications Services, Inc., d/b/a Iowa Telecom, and Frontier Communications is approved.
3. The tariff filed by Interstate Cablevision Company on October 2, 2006, identified as TF-06-270, is approved effective the date of this order.
4. The waiver of 199 IAC 16.5(2) and 22.3(1), identified as Docket No. WRU-06-22-3863, is granted as described in this order.

5. A certificate, identified as Certificate No. 0307 is being issued to Interstate Cablevision Company concurrently with this order.
