IN RE: QWEST CORPORATION	DOCKET NO. WRU-06-25-272
---------------------------------	--------------------------

ORDER GRANTING WAIVER AND REQUEST FOR CONFIDENTIALITY

(Issued November 7, 2006)

On October 30, 2006, Qwest Corporation (Qwest) filed with the Utilities Board (Board) a request for a waiver of the number utilization threshold requirements for the Ottumwa, Iowa, rate center. The requirements relating to optimization of telephone numbering resources are outlined in various orders of the Federal Communications Commission (FCC).

Qwest states it received a request from a corporate customer for 300 direct inward dialing (DID) numbers in the Ottumwa rate center that begin with the number "5." Qwest states that it does not have the sequential numbers to fulfill the customer's request without a new 1,000 number block. On October 17, 2006, Qwest submitted a request for a new one thousand number block to NeuStar, Inc. (NeuStar), the National Pooling Plan Administrator (Pooling Administrator). When applying for a block of 1,000 numbers, the FCC requires that a carrier must show that it has a minimum utilization rate of 75 percent or less than a six-month inventory of numbers in the relevant rate center. The Pooling Administrator denied Qwest's request because Qwest was unable to meet either of these FCC requirements.

The FCC has given states the authority to overturn the Pooling Administrator's decision to withhold numbering resources from a carrier based on the state's determination that the carrier has demonstrated a verifiable need for numbering resources and has exhausted all available remedies. (See 47 C.F.R. § 52.15(g)(4).) In addition, the FCC states that carriers may demonstrate the need for additional numbering resources by providing the state with documentation of a customer request and current proof of utilization in the rate center. (FCC 01-362, § 64.) The FCC is careful to point out, however, that states may not accommodate requests for specific numbers (i.e., vanity numbers), but may grant requests for customers seeking contiguous blocks of numbers. (Id.) Therefore, a statement by the carrier regarding the types of numbers being requested is necessary.

The information filed by Qwest in support of its request satisfies the requirements specified in the FCC's orders delegating waiver authority to the Board. Qwest has provided documentation of its customer's request for 300 consecutive DID telephone numbers as well as appropriate statements regarding number utilization in the Ottumwa rate center. Therefore, the Board will grant Qwest's request for waiver and requests that the Pooling Administrator release the 641-455-5XXX block of telephone numbers to Qwest.

Also on October 30, 2006, Qwest filed a request for confidential treatment of cost support information submitted in support of its waiver request. Qwest supports its request for confidentiality with an affidavit by a corporate officer, stating that the information constitutes confidential trade secrets under Iowa Code § 550.2(4) and

also constitutes a report to a government agency within the meaning of Iowa Code § 22.7(6). The materials were sealed in a separate envelope and marked confidential. Qwest cites Iowa Code §§ 22.7(3) and 22.7(6) as authority for confidential treatment of the information.

The Board finds that the application and affidavit support a finding that the cost information constitutes a trade secret under Iowa Code § 550.2(4) as it derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means, by a person able to obtain economic value from its disclosure, and it is the subject of reasonable efforts to maintain its secrecy. The Board finds that this information, if released, would provide an advantage to Qwest competitors.

Iowa Code § 22.7(3) provides confidential treatment for trade secrets which are recognized and protected as such by law. The material submitted by Qwest includes cost support material and supporting data. The supporting affidavit by Max A. Phillips, Qwest President—Iowa, states that the information is unpublished data not known outside of Qwest and is in fact restricted to certain Qwest employees. Iowa Code § 22.7(6) provides confidential treatment for public records that are reports to government agencies and which, if released, would give advantage to competitors and would serve no public purpose. The Board finds the submitted information constitutes a report to a government agency and the Board finds that the release of the information would serve no public purpose. Therefore, the Board will

hold the information confidential under the provisions of Iowa Code §§ 22.7(3) and 22.7(6) as requested by Qwest on October 30, 2006.

IT IS THEREFORE ORDERED:

1. The request for waiver of the FCC's utilization threshold requirements filed by Qwest Corporation on October 30, 2006, is granted as discussed in the body of this order, so that Qwest can obtain the 641-455-5XXX block for use in the Ottumwa, Iowa, rate center.

2. The Executive Secretary of the Utilities Board shall mail a copy of this order to NeuStar, Inc., 1800 Sutter Street, Suite 780, Concord, CA 94520, to the attention of Ms. Tara Farquhar, Iowa Number Pooling Administrator.

3. The request for confidentiality filed by Qwest Corporation on October 30, 2006, is granted pursuant to Iowa Code §§ 22.7(3) and 22.7(6).

4. The information shall be held confidential by the Board subject to the provisions of 199 IAC 1.9(8)"b"(3).
