The Board has reviewed Dairyland Power Cooperative's application and finds it meets the requirements of Iowa Code § 478.31 (2007). Therefore, Dairyland Power Cooperative is granted a temporary construction permit for an electric transmission line to be operated at a maximum voltage not in excess of that stated herein and not exceeding one mile in length over, along, and across the following described land, highways, and streams:

If the Board determines that a franchise should not be granted or that further restrictions, conditions or modifications are required or if Dairyland Power Cooperative fails to make a sufficient and proper showing of the necessity for granting the franchise within six months of the granting of this temporary construction permit, this permit shall become null and void.

**IT IS THEREFORE ORDERED:**
