WOLF CARBON SOLUTIONS US LLC,	)

vs.	)	
	)	AFFIDAVIT OF JESSICA MAZOUR
IOWA UTILITIES BOARD	)	
	)	
Respondent.	)	

I, Jessica Mazour, being first duly sworn on oath, state as follows:

1. My name is Jessica Mazour and I am the Conservation Program Coordinator for the Sierra Club Iowa Chapter.

2. I have been working to support landowners whose land may be impacted by the proposed Navigator carbon dioxide pipeline. I currently have the names of a few hundred landowners that I have been working with. All of the landowners I am working with are opposed to the Wolf pipeline. This is only a small portion of the several thousand impacted landowners. Without access to the full list of landowners it is extremely difficult for the landowners to communicate with each other and support each other.

3. All of the landowners I am working with want their names shared with other landowners. They also know that the more landowners who band together to support each other, the more effectively they can respond to the harassment, threats and intimidation from Wolf's land agents who are trying to get the landowners to sign easements for their property.

4. I have not heard from any landowners who do not want their names released to the public. Nor have I heard about any landowners who do not want their names released to the public. I have also monitored the Iowa Utilities Board docket in the Wolf case and

there is no indication in the comments and objections that have been filed that any landowners do not want their names released.

5. I currently do not have the ability to check Wolf's list for accuracy and proper notification. Wolf admitted that over 5,000 parcels were excluded from proper notification and without access to the list, the public cannot confirm proper notification.

I certify under penalty of perjury and pursuant to the laws of the State of Iowa, that the foregoing is true and correct to the best of my knowledge and belief.

Dated November 2, 2022.
