Re: Presentation at IUB Public Meeting on December 15, 2015

Dear Director Petri:

On behalf of the Iowa Utilities Board, I would like to invite you to make a presentation regarding the Iowa Energy Center at the Board's public meeting on December 15, 2015. The Board believes that the Energy Center, and Iowans in general, would benefit from such a presentation.

We are particularly interested in the following:

1. A description of the initiatives and projects of importance to the State of Iowa that the Energy Center has implemented and the results that have been achieved using Iowa ratepayer funding.
2. A description of the process by which the Energy Center selects its projects and reviews those projects to ensure the effective use of its funding.
3. An analysis of the grant program for the past 5 years describing the awards and the results achieved.
4. Audit information on the grant and loan programs administered by the Iowa Energy Center.
5. For convenience of all parties, information including copies of program audits and financial audits of the grant and loan programs may be submitted by uploading to the Electronic Filing System.

These Board meetings are open to the public and are video streamed for those who are unable to attend in person. They are an excellent opportunity to educate the public regarding energy issues and programs that are available to the public to encourage efficient energy usage.

I look forward to your presentation!

Sincerely,

A handwritten signature in black ink that reads "Geri D. Huser".

Geri D. Huser, Chair

Re: Presentation at IUB Public Meeting on December 15, 2015

Dear Mr. Carmichael:

On behalf of the Iowa Utilities Board, I would like to invite you to make a presentation regarding the Center for Global and Regional Environmental Research at the Board's public meeting on December 15, 2015. The Board believes that CGRER, and Iowans in general, would benefit from such a presentation.

We are particularly interested in the following:

1. A description of the initiatives and projects of importance to the State of Iowa that CGRER has implemented and the result that have been achieved using Iowa ratepayer funding.
2. A description of the process by which CGRER selects its projects and reviews those projects to ensure effective use of its funding.
3. An analysis of the grant program for the past 5 years describing the awards and the results achieved.
4. Audit information on the grant and loan programs administered by CGRER.
5. For convenience of all parties, information including copies of program audits and financial audits of the grant and loan programs may be submitted by uploading to the Electronic Filing System.

These Board meetings are open to the public and are video streamed for those who are unable to attend in person. They are an excellent opportunity to educate the public regarding energy issues and programs that are available to the public to encourage efficient energy usage.

I look forward to seeing your presentation!

Sincerely,

A handwritten signature in black ink, appearing to read "Geri D. Huser".

Geri D. Huser, Chair
